

Haines community,

In order to learn more about the unique needs in each region of the city, CPS will hold four virtual community workshops this summer. Each workshop will give attendees an opportunity to provide feedback and ideas on the Annual Regional Analysis (ARA) and learn more about how it connects to the district's recent community engagement efforts on SQRP, school funding, capital planning and more. Families can register for the following meetings with the links below, or by visiting cps.edu/ara.
