

Code Play Learn South Loop

Spring 2018 Schedule

Code Play Learn's Spring Chicago Classes at 1723 S. Michigan Avenue start March 3rd. Register now to reserve your seat.

STEM/Coding Classes

- **LEGO ROBOTICS K-3rd**
 - Each week students will construct and modify their own Lego robots incorporating motors, motion sensors and a distance sensors. After building our creations we then use the LEGO WeDo programming platform to make their creations come alive.
- **JAVA Minecraft Modding 3rd-7th**
 - Code Play Learn is excited to offer our Introduction to JAVA Coding and Minecraft Modding class for 3rd-7th graders. Students will learn the fundamentals of the JAVA language as they build Minecraft Mods that they can test directly in their Minecraft game.
- **Computer Game Creation Class 1st-3rd**
 - Using MIT's Scratch programming platform, students will learn to code while they create their own interactive media, including stories, games and animations.
