NOTIFICATION LETTER FOR SEXUAL HEALTH EDUCATION

Dear Parent or Guardian:

During the month of March your child will receive Sexual Health Education as part of the CPS Sexual Health Education Policy. Depending on your child’s grade level, topics may include:

- Personal Safety
- Human Reproduction and Childbirth
- Puberty
- HIV/AIDS and Sexually Transmitted Infections (STIs)
- Contraception and Pregnancy Prevention – (A condom demonstration may be included)
- Abstinence
- Healthy Relationships
- Decision Making

Please read the attached detailed scope and sequence for the CPS Sexual Health Education Curriculum. This document includes the lesson titles and information about each lesson for every grade level.

The Board acknowledges that parents/guardians are the primary sexuality educators for their child/children and Haines Elementary School is committed to partnering with parents/guardians to provide supplementary instruction to students via the sexual health education lessons.

In alignment with Illinois State Code 105 ILCS 110/3 (No pupil shall be required to take or participate in any class or course on AIDS or family life instruction if his parent or guardian submits written objection thereto, and refusal to take or participate in the course or program shall not be reason for suspension or expulsion of the pupil), parent/guardians must provide a timely written objection opting their child/children out from participating in any CPS Sexual Health Education course. No student shall be suspended or expelled for refusal to participate in any such course with submitted objection. Your child’s participation in this worthwhile unit of study is voluntary. If you wish to have your child excused from participation, please inform me in writing.

Sincerely,

Ginger Lumpkin, Principal

Christopher Hennessy, Health/P.E. Teacher
Sexual Health Education
Scope and Sequence for Grades Kindergarten to High School

Kindergarten
Lesson 1: Public vs. Private – Students identify public and private body parts using medically-accurate vocabulary.
Lesson 2: Good Touch, Bad Touch – Students learn that no one is allowed to touch their private parts without permission.
Lesson 3: Secrets – Students learn strategies for telling a trusted adult about a secret that makes them scared or uncomfortable.
Lesson 4: Smart About Strangers – Students learn tips for staying safe online and in the real world.

1st Grade
Lesson 1: Respecting Everyone – Students use creative drawing to show that everyone is a unique individual who deserves dignity and respect.
Lesson 2: Families – Students identify diverse family structures and brainstorm ways to treat all families with respect.
Lesson 3: Families Change – Students explore ways a family can change and how to handle feelings that come with a changing family.
Lesson 4: Bullying – Students identify forms of bullying and what to do if they or a classmate is being bullied.

2nd Grade
Lesson 1: My Body – Students learn about the body including the male and female genitalia.
Lesson 2: All Living Things Reproduce – Students identify characteristics of all living things and study the life cycle of a frog.
Lesson 3: Gender and Identity – Students role play strategies for breaking down gender stereotypes and learn to treat all people in their community with respect.
Lesson 4: Keeping My Body Healthy – Students practice infection control strategies for staying healthy.

3rd Grade
Lesson 1: Respecting Myself and Others – Students learn concepts of respect for others and self-respect. Students will practice communicating respectfully.
Lesson 2: Building Relationships – Students examine traits of healthy and unhealthy relationships.
Lesson 3: Building Communities (optional) – Students examine their own strengths and struggles, and how they can use their strengths to create a healthy classroom community.
Lesson 4: Bullying – Students learn how they can be leaders against bullying in their classroom community.

4th Grade
Lesson 1: What is Puberty – Students are introduced to the physical, social, and emotional changes of puberty.

Healthy CPS — Office of Student Health & Wellness
Lesson 2: Puberty Boy, Puberty Girl - Students are split into groups of boys and girls to learn about the physical changes of puberty specific to males or females.

Lesson 3: Puberty Stress Management and Goal Setting - Students learn techniques to manage the stresses of puberty and set goals for the future.

Lesson 4: Germs and Your Immune System (optional) - Students identify difference between bacteria and viruses and learn how the immune system keeps the body safe from infection.

Lesson 5: What is HIV? - Students are introduced to HIV as a bloodborne virus, and learn universal precautions for protecting themselves from blood borne illnesses.

5th Grade

Lesson 1: Puberty - Students learn about the physical, social, and emotional changes of puberty, including changes specific to male and female bodies.

Lesson 2: Health and Hygiene - Students learn proper hygiene practices to keep their growing bodies healthy.

Lesson 3: Body Image - Students explore the influence of media and social culture on their changing body image.

Lesson 4: Human Reproduction - Students are introduced to concepts in human reproduction and explore how puberty prepares the body for reproduction.

Lesson 5: Abstinence and Contraceptives - Abstinence is stressed as a developmentally appropriate sexual practice. Hormonal and barrier method contraceptives are introduced as ways to prevent pregnancy and STIs.

Lesson 6: HIV - HIV is defined as a sexually transmitted disease, and students learn ways to protect themselves from transmission of HIV and other sexually transmitted infections. Abstinence is stressed as developmentally appropriate sexual behavior.

Lesson 7: Gender and Identity - Students learn the difference between sex and gender and brainstorm ways to show respect to different ways of gender expression.

Lesson 8: Personal Safety and Abuse - Students identify behaviors of sexual abuse and harassment and learn techniques for protecting themselves against sexual abuse and harassment.

Lesson 9: Identifying Resources and Review - Students review key concepts from the unit and identify resources of medically-accurate information on puberty, human reproduction, and personal safety.

6th Grade

Lesson 1: Human Reproduction - Students describe male and female sexual and reproductive systems, including body parts and their functions. Students define sexual intercourse and its relationship to human reproduction.

Lesson 2: Pregnancy and Birth - Students identify signs and symptoms of pregnancy and learn prenatal practices that contribute to a healthy pregnancy.

Lesson 3: Exploring Abstinence - Students will identify abstinence as the only 100% effective method of protecting against unplanned pregnancy and sexually transmitted infections. Student will develop and communicate a plan for practicing abstinence.

Lesson 4: Contraceptives - Students will learn the benefits, risks, and effectiveness rates of various types of contraceptive methods, including abstinence, condoms, hormonal methods, and emergency contraceptives.

Lesson 5: STI and HIV Prevention - Students will learn medically-accurate information about STIs and HIV. Students will develop a plan to reduce their risk for STIs and HIV.

Lesson 6: Decision Making - Students apply a decision making model to adolescent and sexual health scenarios.

Lesson 7: Delay Tactics and Refusal Skills - Students practice communicating effectively about their sexual health decisions.

Lesson 8: Sexual Health Resources - Students identify medically-accurate sources of information about sexual health, STIs, and HIV.

Healthy CPS — Office of Student Health & Wellness
7th Grade

Lesson 1: Adolescent Development - Students describe the physical, social, cognitive, and emotional changes of adolescence.

Lesson 2: Self-esteem and Body Image - Students analyze how friends, family, media, and culture can influence self-esteem and body image.

Lesson 3: Decision Making - Students apply a decision making model to some of the tough decisions of adolescence.

Lesson 4: Relationships I Keeping it Healthy - Students discuss characteristics of healthy and unhealthy relationships and apply the criteria for healthy relationships to various scenarios.

Lesson 5: Relationships II Influences - Students analyze the ways friends, family, media, society, and culture can influence relationships.

Lesson 6: Relationships III Communication - Students learn and apply techniques for communicating assertively and respectfully to express what they do and do not want in relationships. Students practice saying "no" is aggressive situations.

Lesson 7: Technology and Relationships - Students discuss the role of technology in relationships and develop a plan for remaining safe while using technology and social media.

Lesson 8: Identity I - Students differentiate between gender identity, gender expression, and sexual orientation, and explore external influences that impact one's attitude about gender expression and sexual orientation.

Lesson 9: Identity II - Students learn to communicate respectfully with and about people of all gender expressions and sexual orientations. Students develop a plan to promote dignity and respect for all people.

8th Grade (New and Required)

Lesson 1: (Cyber)Bullying - Students describe situations that constitute real life and cyber bullying. Students discuss the impacts of bullying and create a plan for communicating respectfully with everyone.

Lesson 2: Dating Violence - Students will define dating violence, identify phases of the cycle of violence, and learn how to advocate for safer environments.

Lesson 3: Sexual Violence - Students will define consent in relationship to sexual violence.

After teaching Lessons 1-3, educators for grade 8 have the option of completing sexual health education using the Relationship Building Track or the STI and Pregnancy Prevention Track. Both tracks provide a review of key concepts from the 6th and 7th grade lesson sequence through use of selected lessons. Educators should evaluate students using the pretest, as well as knowledge about the students proficiency in these topic area and cultural and community influences. Completing either track will meet the minute requirements outlined in CPS policy.

Choose one

8th Grade Relationship Building Track

Lesson 1: Decision Making - Students apply a decision making model to some of the tough decisions of adolescence.

Lesson 2: Relationships I Keeping it Healthy - Students discuss characteristics of healthy and unhealthy relationships and apply the criteria for healthy relationships to various scenarios.

Lesson 3: Relationships II Influences - Students analyze the ways friends, family, media, society, and culture can influence relationships.

Lesson 4: Relationships III Communication - Students learn and apply techniques for communicating assertively and respectfully to express what they do and do not want in relationships. Students practice saying "no" is aggressive situations.

Lesson 5: Gender Expression and Sexual Orientation - Students differentiate between gender identity, gender expression, and sexual orientation, and explore external influences that impact one's attitude about gender expression and sexual orientation.
8th Grade STI and Pregnancy Prevention Track

Lesson 1: Pregnancy and Birth - Student identity signs and symptoms of pregnancy and learn prenatal practices that contribute to a healthy pregnancy.

Lesson 2: Exploring Abstinence - Students will identify abstinence as the only 100% effective method of protecting against unplanned pregnancy and sexually transmitted infections. Student will develop and communicate a plan for practicing abstinence.

Lesson 3: Contraceptives - Students will learn the benefits, risks, and effectiveness rates of various types of contraceptive methods, including abstinence, condoms, hormonal methods, and emergency contraceptives.

Lesson 4: STI and HIV Prevention - Students will learn medically-accurate information about sexually transmitted infections and HIV. Students will develop a plan for reducing their risk for sexually transmitted infections and HIV.

Lesson 5: Sexual Health Resources - Students identify medically-accurate sources of information about sexual health, STIs, and HIV.

Lesson 6: Decision Making - Students apply a decision making model to adolescent and sexual health scenarios.

9th Grade

Lesson 1: Decision Making - Students discuss the choices and consequences of sexual health decisions and practice using a decision making model to make healthy choices.

Lesson 2: Pregnancy - Students study the signs and symptoms of pregnancy and research prenatal practices for a healthy pregnancy.

Lesson 3: Teens and Parenting - Students participate in activities that illustrate resources needed to care for a child and the challenges that face teen parents.

Lesson 4: Teen Sexual Health and Pregnancy Options - Students explore laws that effect sexual health care options for minors.

Lesson 5: Contraceptives - Students compare and contrast the use and effectiveness of various contraceptive methods, including abstinence.

Lesson 6: Sexually Transmitted Infections and HIV - Students learn how to lower their risk of acquiring a sexually transmitted infection and explore resources for testing and treatment.

Lesson 7: Negotiation Skills - Students role play scenarios on sexual health and practice using techniques to set sexual boundaries and delay sexual activity.

Lesson 8: Resources - Students create an annotated bibliography on topics of sexual health and access to care.

Lesson 9: External Influences and Sexual Health - Students learn how drugs, alcohol, and other external influences can affect sexual health decisions.

10th Grade

Lesson 1: The Sexual Response Cycle - Students learn the physiological process of the human sexual response cycle, including the role of hormones.

Lesson 2: Healthy Relationships - Students discuss qualifications of a healthy relationship and how to effectively communicate within romantic relationships and peer relationships.

Lesson 3: Technology and Relationships - Students learn how to use technology safely, respectively, and ethically in romantic and non-romantic relationships.

Lesson 4: Body Image and Self-Esteem - Students explore how media, friends, and family can affect their self-esteem and body image.

Lesson 5: Identity - Students discuss how gender bullying and homophobia can hurt individuals and the community and create a strategy for showing respect and dignity to everyone.
