

8th Grade

Consumer Sense (MARS Task)

Research 2 careers in which math is an integral part and write an essay.

Create a video showcasing some of your favorite mental math strategies!

Picking Apples (MARS Task)

Create a digital card sort where students must match 10 linear equations to 10 graphs and tables. Don't forget an answer key!

Use graph paper to draw all shapes that have an area of 36 square centimeters. Make sure to show your measurements.

Research and create a piece of geometric art using only triangles.

Design a poster that explains what the equal sign really means. Use examples to demonstrate and include how to keep both sides balanced!

Take 10 pictures around your house and/or community demonstrating symmetry in the real world.
