

SEPTEMBER

Reading /Language Arts

Students will learn about picture and word sorts as their daily practice of spelling. They will also learn about story elements - characters, settings, beginning, middle, and end - through reading *“Henry and Mudge.”* Reading comprehension assessment (TRC) will be administered to identify students’ reading levels.

Math

Students will develop strategies for adding and subtracting within 20. They will also explore strategies to identify even and odd numbers. NWEA math assessment will be administered this month.

Science

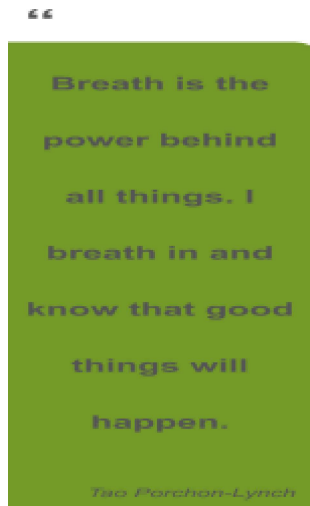

Students explore matters and the different properties of matters through an engaging task of creating a good working glue.

Social Science

Students will study community by looking at our school community and neighborhood. They will also learn about the different jobs within a community.

Welcome to 2nd grade! We are delighted that you will be joining us for the 2019-2020 school year. Please know that our days will be filled with many wonderful experiences, field trips, and opportunities for learning. Second grade teachers are Ms. Chan (212), Ms. Ma (214), and Ms. Woods (217). We are excited to begin a new initiative here at school called “silent reflection.” Students will participate in 10 minutes of guided silent reflection daily to help release stress and to create a calm classroom.

STUDENT OF THE MONTH/WEEK

Room 212-

Room 214 - Peiqi Cai

Room 217 -Naomi Wang

We want to recognize Ms. Garcia and Ms. Willis (our custodial staff) for working tirelessly to keep our school clean.
