Science/SS - Yau

Science: Patterns of Earth and Sky Unit:

Students will investigate the question: *If Earth is spinning, which way is it up?* They will make predictions, watch videos, visualize as they read the text and create digital models. Through these activities students will learn that what people on Earth perceive as up and observe in the sky changes as Earth spins, but, because Earth pulls objects down with the force of gravity, up is always away from the ground.

315 Science Meets DAILY from 11:00 AM - 11:30 AM
